One of the Most Powerful Grazers in its Class

Rozino boasts a powerful **4700+** peak center beam candela made possible by an advanced multi-element optical system and is designed with a precise **10°** beam angle that effectively highlights architectural details.

Continuous Fixture Cover for up to 150 ft. Monolithic Fixture

Rozino includes a patent-pending paintable fixture cover that can bridge up to 150 ft. of individual fixtures to create a continuous monolithic fixture look without unsightly seams or mounts showing.

Pivoting Mounting Hardware for Maximum Effect

Pivoting and lockable mounting hardware allow the fixture to be mounted at the best angle for maximum effect, ensuring optimal light distribution and enhanced aesthetic that meets the specific needs of any space.
