

Rozino Nano Linear Wall Grazer

Specification Submittal

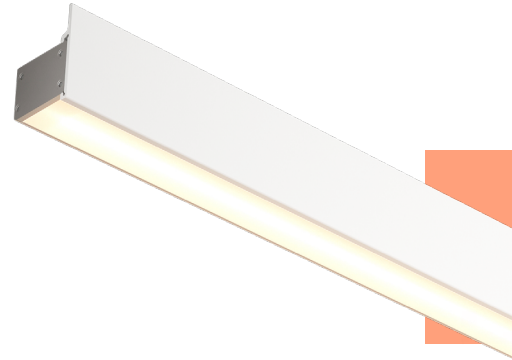

Rozino is one of the most powerful wall grazers in its class with a peak candela of 4700+ and a precise 10° beam angle. It is designed to highlight architectural surface details with unparalleled clarity. Rozino includes a patent-pending paintable fixture cover that can bridge up to 150 feet of individual fixtures to create a continuous monolithic fixture look without unsightly seams, or mounts showing. Painting the pre-primed fixture cover to color-match the ceiling will allow the fixture to blend in with its surroundings. Perfect for both commercial and sophisticated residential settings, Rozino combines aesthetic flexibility with cutting-edge technology to enhance any space.

Features & Benefits

- Designed with a precise 10° beam angle, Rozino effectively highlights architectural details
- Powerful 4700+ peak center beam candela made possible by an advanced multi-element optical system
- Continuous fixture lengths up to 8 ft.
- Continuous, paintable fixture cover for spanning multiple fixtures up to 150 feet
- Pivoting and lockable mounting hardware allow the fixture to be mounted at the best angle for maximum effect
- Canopy kit options available
- Complete UL listed luminaire
